

SRI SAI PRASANNA SRIKARI GARIKAPATI

6300938098 | garikapatisrikari@gmail.com | Andhra Pradesh |  |  | 

PROFESSIONAL SUMMARY

Computer Science (IoT) undergraduate with hands-on experience in full-stack development (React.js, Node.js, MongoDB), machine learning (Python, scikit-learn), and data analytics (Pandas, NumPy, Excel, SQL). Built and led development of a complaint-management platform serving real users, and built classification models with data-driven analysis for real-world datasets. Also experienced in deploying basic cloud infrastructure on AWS EC2. Seeking to apply full-stack, data, and ML skills to build scalable, data-informed software solutions.

EDUCATION

Aditya College of Engineering & Technology, Surampalem – Andhra Pradesh

B.Tech – Computer Science (IoT) | 2023–2027 | CGPA: 8.05

SKILLS

Programming: Python, JavaScript, C, HTML5, CSS3

Frameworks: React.js, Node.js, FastAPI

Cloud: AWS EC2, Linux, SSH

Tools: Git, GitHub, VS Code

Data Analytics: Microsoft Excel, Machine Learning, SQL

Professional Skills: Communication, Interpersonal Skills, Presentation Skills, Leadership, Teamwork

INTERNSHIP

Smartbridge – MERN Stack Developer Intern | 05/2025 – 07/2025

- Led a team of 4 members to develop a full-stack complaint management platform, handling 50+ complaint submissions.
- Built 8+ REST API endpoints and implemented secure user authentication.

AWS Cloud Computing & DevOps Intern | 05/2025 – 07/2025

- Deployed 2–3 Linux servers on AWS EC2 with secure SSH access
- Configured cloud infrastructure, networking, and firewall settings.

Data Analytics Intern | 02/2026 – 05/2026

- Performed data analysis and visualization using Python, Excel, Pandas, NumPy, and Machine Learning.
- Built Logistic Regression, KNN, and Decision Tree models for Iris dataset classification, achieving up to 95% accuracy.

Google Cloud Generative AI | 05/2026 – 07/2026

- Gaining practical experience in Generative AI and Google Cloud technologies.
- Applied AI concepts and cloud tools to build intelligent, real-world applications in a collaborative environment.

PROJECTS

Personalized Networking Assistant

- Built an AI-powered networking assistant using FastAPI and Streamlit with personalized conversation generation and user profile management.

Resolve-Now

- Developed a complaint management platform with secure authentication and REST APIs.

AI-Powered Music Recognition App

- Built an application to recognize songs through humming with a responsive interface.

Iris Flower Classification

- Built and compared Logistic Regression, KNN, and Decision Tree models for Iris flower classification.
- Performed data preprocessing and evaluated model performance for accurate predictions.

AI-Generated Classroom Timetable | SIH

- Built an AI-based system to generate clash-free timetables using academic and resource constraints.
- Automated timetable scheduling for 10+ sections, reducing manual scheduling effort

CERTIFICATIONS

- MERN Full Stack Development – Smartbridge
- AWS Cloud Computing & DevOps
- HTML Certification • CSS Certification • C Programming Certification

LEADERSHIP & ACHIEVEMENTS

- **Team Leader – Smartbridge Internship Project:** Led a 4-member team, coordinated development activities, and ensured timely project completion.
- **Participant – Smart India Hackathon:** Collaborated with a team to develop innovative solutions under time constraints.
